

JING TONG, Ph.D.

Curriculum Vitae, April 2026

Email: Jing.Tong@psych.rwth-aachen.de

Education

December 2020- December 2025 Ph.D. in Psychology

Institute: Department of Psychology, RWTH Aachen University, Germany

Supervisors: Andrea M. Philipp, Ph.D., Iring Koch, Ph.D.

Thesis topic: The role of prediction during language processing

September 2017- June 2020 Master degree in Psychology

Institute: Research Center of Brain and Cognitive Neuroscience, Liaoning Normal University, China

Supervisors: Huanhuan Liu, Ph.D.

Thesis topic: How reward expectation modulates language control during language switching

September 2012- June 2016 Bachelor degree in Psychology

Institute: Department of Psychology, Guangzhou University, China

Research experiences

December 2020- December 2025 Working on my Phd thesis

Responsibilities:

- Conceptualizing experimental hypothesis
- Designing and programming experiments
- Analyzing behavioral and eye-tracking data
- Writing three first-author manuscripts for publications
- Writing a monograph-style PhD thesis

October 2019- June 2020 Working on my master thesis

Responsibilities:

- Conceptualizing experimental hypothesis
- Designing and programming experiments
- Recruiting participants
- Collecting and analyzing EEG data
- Writing master thesis

September 2017 – November 2019 Taking part in my supervisor's two EEG research projects

Responsibilities:

- Preparing experimental materials
- Programming experiments
- Recruiting participants
- Collecting and analyzing EEG data
- Contributing to two manuscripts' writing for journal publications

Conferences attended as presenter

- Hight light in language science, 2024, Radboud University, Netherlands. Poster: “The influence of predictability on within- and cross-language production: evidence from semantic classifier congruency”
- Unraveling the mind’s verbal tapestry, 2024, New York university Abu Dhabi. Invited Talk: “Semantic classifier congruency in the first and second language”
- ESCoP, 2023, Porto, Portugal, Poster: “Semantic classifier congruency within- and cross-languages”
- Teap, 2023, Trier. Symposium talk: “Semantic classifier congruency in the first and second language”
- Teap, 2022, online. Poster: “The impact of semantic-syntactic features on language switching”

Attended workshops

- CeLM Research Methods Summer School (online), September 2024, “Introduction to Bayesian statistics and Bayesian Hierarchical Models”
- Theoretical Modeling Workshop (online), September 2024, organized by Prof. Dr. Iris van Rooij from Radboud University Nijmegen
- Teap, March 2023, Trier, pre-conference workshop: Theory and practice of Bayesian inference using JASP

Research outputs

- **Tong, J.**, Koch, I., & Philipp, A. M. (2025). The influence of prediction on bilingual language production: evidence from semantic classifier congruency. *Psychological Research*, 89(6), 1-17.
- **Tong, J.**, Koch, I., & Philipp, A. M. (2025). Within-language and cross-languages prediction: evidence from semantic classifier congruency. *International Journal of Bilingualism*, 13670069251353414.
- **Tong, J.**, Roembke, T., Scharke, W., Koch, I., & Philipp, A. M. (2026). Prediction during within- and cross-languages phrase comprehension: Evidence from eye-tracking. *Journal of Cognition*[Under peer review].
- **Tong, J.**, Kong, C., Wang, X., Liu, H., Li, B., & He, Y. (2019). Transcranial direct current stimulation influences bilingual language control mechanism: evidence from cross-frequency coupling. *Cognitive Neurodynamics*, 14, 203-214.
- Liu, H., **Tong, J.**, de Bruin, A., Li, W., He, Y., & Li, B. (2019). Is inhibition involved in voluntary language switching? Evidence from transcranial direct current stimulation over the right dorsolateral prefrontal cortex. *International Journal of Psychophysiology*, 147, 184-192.

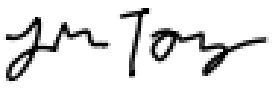

Skills

Analyzing skill: event-related brain potential analysis, time–frequency analysis, growth curve analysis, cluster-based permutation analysis, Linear mixed model, ANOVAs.

Programming skill: R, Python, Matlab, MS office package, SPSS

Languages

English Advanced
German Basic Proficiency
Chinese Native
